

**Question 30:**

Can one Aboriginal Community, which is part of a larger Aboriginal Nation, submit two projects of 25MW?

**Answer 30:**

There is no limit as to the number of bids (project of 25 MW or less) that can be submitted by a bidder.

At Step 3 of the selection process, when combinations will be formed for the requested amounts of MW, Hydro-Québec Distribution will make sure that all combinations respect the maximum requirements set out in Section 1.1 of the call for tenders document.
