

**Question 32: (translated from French)**

Does the submission of the registration form "Notice of Intent to bid" presented in Appendix 2 of the call for tenders documents and registration fees commit us to submit a bid? Are we required to submit a bid in May 2010? If yes, what are the penalties for not submitting? Is it simply a registration in order to be able to submit a bid on May 19, 2010?

**Answer 32:**

It is simply a registration in order to be able to submit a bid. The submission of the registration form provided in Appendix 2 of call for tenders document and costs inherent do not bind the potential bidder to submit a bid.

A potential bidder who did not forward this form or paid the required registration fees within the prescribed period is not eligible to bid in the present call for tenders.

It is the same for the potential wind turbine manufacturer who has not sent its notice of intent to act as a designated wind turbine manufacturer.
