

Question 37: (translated from French)

Can a Aboriginal wind project be developed in an administrative region where there is no Aboriginal nation or community recognized by the Government of Quebec?

Answer 37:

This question concerns the block of 250 MW of wind energy from Aboriginal projects.

The answer to the question is no. The project must be developed in the administrative region where is located the Aboriginal nation, the Aboriginal community or Aboriginal the institution who has control of the project.
