

Question 43: (translated from French)

Does a project, in which a RCM and an Aboriginal community are involved and in which they hold jointly 30% of the project, will be eligible for the Community block? What happens if the address of the Aboriginal community is not on the territory of the RCM?

Answer 43:

No. However, if a group of natural persons, respecting the requirements specified in section 1.3.1.2 of the call for tenders document, hold jointly with a RCM a minimum participation of 30% of the project, then the project will be eligible for the Community block.
