

**Webinar on technical aspects
September 4th, 2013
Project QC-2012-01**

ERRATUM

Please note that the list of standards subject to the technical conference has been corrected.

In accordance with the decision [D-2011-139](#), the Reliability Coordinator solicited comments from the registered entities and the stakeholders on the following reliability standards and documents in view of their submittal to the Régie de l'énergie of Quebec for adoption or approval. The consultation period ending on February 21, 2013, the Reliability Coordinator will hold a technical conference via Webinar. This meeting will focus on the following documents, which are subject to public consultation and require some technical clarifications based on the comments received by the coordinator.

Documents	Modifications
Registry of entities subject to the reliability standards	Addition of new entities, removal of facilities associated with system restoration.
Glossary of terms and acronyms	Updated based on changes made by NERC
Recommended enforcement date	-
Violation Risk Factors Table	Updated to reflect the proposed standards

Standards	Title
EOP-003-2	Load Shedding Plans
FAC-008-3	Facility Ratings
FAC-013-2	Assessment of Transfer Capability for the Near-term Transmission Planning Horizon
IRO-008-1	Reliability Coordinator Operational Analyses and Real-time Assessments
IRO-009-1	Reliability Coordinator Actions to Operate Within IROLs
IRO-010-1a	Reliability Coordinator Data Specification and Collection
MOD-001-1a	Available Transmission System Capability
MOD-008-1	Transmission Reliability Margin Calculation Methodology
MOD-028-1	Area Interchange Methodology
MOD-029-1a	Rated System Path Methodology
MOD-030-2	Flowgate Methodology
PER-004-2	Reliability Coordination – Staffing
PER-005-1	System Personnel Training
PRC-002-NPCC-01	Disturbance Monitoring
PRC-006-1	Automatic Underfrequency Load Shedding
PRC-018-1 (annexe QC-PRC-018)	Disturbance Monitoring Equipment Installation and Data Reporting
PRC-023-2	Transmission Relay Loadability

**Webinar on technical aspects

Webinar registration

The webinar addressing comments received during the consultation period will be held on September 4th, 2013 between 1:30 p.m. and 4:30 p.m. The webinar will be conducted primarily in French, however the Reliability Coordinator will also answer questions asked in English.

Please confirm your registration via email to fiabilite@hydro.qc.ca before August 28th 2013. Dial in information as well as the access code to the webinar will be sent out via email once registration is complete.

Next steps

- Responses to comments received during the first round of comments
- Webinar on the technical aspects (September 4, 2013)
- Second round of comments (if necessary)
- Modification of the documents and preparation of the filing to the Régie de l'énergie;
- Filing of the standards and documents to the Régie de l'énergie for adoption or approval.
