Efficient Products Program – Motors

Efficient Products Purchase Rebate Form and Guide

For Commercial, Institutional, Industrial
and Agricultural Customers

Guide

Make the Right Choice!

Buy products that meet the energy efficiency criteria of the Efficient Products Program and get a rebate!

Eligibility

1 Customers

Commercial, institutional, industrial and agricultural customers, except those who pay Rate L, are eligible.

NOTE: Customers of municipal and off-grid systems are also eligible for the Efficient Products Program.

2 General conditions

- You must purchase a NEMA Premium™ three-phase 1 to 75-hp motor.

NOTE: Selected models must appear on the *List of Eligible Motors* available on Hydro-Québec's Web site: www.hydroquebec.com/efficientproducts

- You must buy the motor from an Efficient Products Program partner.

NOTES: 1. See the *List of Participating Distributors* on Hydro-Québec's Web site.

2. If you have purchased the motors from a master electrician, you must provide proof that the master electrician purchased it from a participating distributor.

- You must install the motor:
 - within six months of purchase
 - in a building or other location in Québec, whether existing, being renovated or under construction
- Each rebate request must be for at least \$100.

NOTE: You can combine your bills for efficient products over a maximum of 12 months from the date of the first purchase.

3 Eligibility period

Products must be purchased between September 30, 2005, and December 31, 2010.

IMPORTANT

- Read *Specific Conditions of Participation* on page 4 carefully
- For further information, visit our Web site: www.hydroquebec.com/efficientproducts

Guide

Procédure

1 Have the following on hand

- Electricity bill indicating the contract number for each location where a motor has been installed
- Motor purchase invoice(s)
- Your Québec enterprise number (NEQ)
For information, go to <https://ssl.req.gouv.qc.ca/slc0110.html>
- Your Québec sales tax (QST) number

2 Complete the entire form

- Fill in all three sections of the form
 - Section 1 — General information
 - Section 2 — Information on motors by installation location
NOTE: You must fill in a copy of Section 2 for each contract number associated with an installation location (see your electricity bill).
 - Section 3 — Total rebate and customer's undertaking

3 Send in the following

- Duly completed and **signed** form.
- Copies of **invoices for motors** for which a rebate is being requested.
NOTE: Invoices must include all the information required under the heading "Proofs of purchase to be submitted with requests" (see *Specific Conditions of Participation*, page 4).

4 Send the rebate request and proofs of purchase to Hydro-Québec

Fax

PROCESSING TIME

- **You will receive your rebate within 30 days of receipt of your request by Hydro-Québec, provided that the form is duly complete and accompanied by the required documents.**

Specific Conditions of Participation

Eligible customers

Commercial, institutional, industrial and agricultural customers, except those who pay Rate L, are eligible.

- Customers of municipal and off-grid systems are also eligible for the Efficient Products Program.

Characteristics of efficient products eligible for a rebate under the Efficient Products Program

Any three-phase motor—1 to 75 hp—that meets the NEMA Premium™ standard is eligible for a rebate under the Efficient Products Program.

Applicable warranties

Warranties on eligible products are those offered by manufacturers (such as those covering manufacturing defects that affect safety or performance). Hydro-Québec shall not be held liable for any damage or harm arising from products that are included in the Efficient Products Program.

Verifying requests

- Participating customers shall unconditionally agree to submit the required documents or to give a guided tour of their premises within 12 months of Hydro-Québec's receipt of the rebate request to demonstrate that products and installation comply with the terms of the Efficient Products Program.
- Customers who fail to comply with Program conditions shall repay Hydro-Québec any rebates received.
- Rebates are granted for eligible products only. See the Efficient Products Program's *List of Eligible Motors Products* for models and rebate amounts, available at www.hydroquebec.com/efficientproducts

Failure to pay Hydro-Québec

Hydro-Québec may, at any time, deduct the amount of any debt owed by a Program participant, including any overdue bill or unpaid deposit, from the rebate to be paid under this Program.

Environment

It is your responsibility to recycle or dispose of any products replaced under this Program.

Proofs of purchase to be submitted to Hydro-Québec with request

You must submit copies of motor purchase invoices from distributors, including the following information:

- Customer's name
- Distributor's name
- Distributor's GST/QST registration numbers
- Product manufacturer
- Model and manufacturer's catalogue number
- Quantity purchased
- Total purchase price of efficient product(s)
- Purchase date
- Invoice number

NOTE: If you purchased your efficient products from a master electrician, you must submit a copy of the delivery slip from a participating distributor.

Changes to specific conditions of participation

Hydro-Québec reserves the right to change without notice the specific conditions of participation in the Efficient Products Program. The specific Program conditions will continue to apply to requests submitted with invoices dated prior to the effective date of the changes.

Installation standards

- Selection, purchase and installation of electrical equipment shall be the sole responsibility of the customer.
- Installation of any electrical equipment must comply with Canadian Standards Association (CSA) standards and Chapter V, Electricity – Québec Building Code.
- We therefore encourage you to employ the services of a person who is qualified to carry out the installation in accordance with requirements under the *Building Act* and the manufacturer's recommendations.

Restriction

Any product for which a rebate has been paid by Hydro-Québec under the Efficient Products Program shall be ineligible for any other rebate or financial assistance under any other Hydro-Québec ENERGY WISE Program.
