

Summary table – 2010

Regions	Abitibi-Témiscamingue (08)	Bas-Saint-Laurent (01)	Capitale-Nationale (03)	Centre-du-Québec (17)	Chaudière-Appalaches (12)	Côte-Nord (09)	Estrie (05)
Population	145,835	201,268	693,859	232,385	405,483	95,538	309,975
Hydro-Québec facilities							
Number of generating stations ¹	6	2	1	4	0	21	1
Installed capacity (MW) ^{2,15}	705	11	22	1,131	0	11,357	2
Number of transmission substations	21	26	30	19	37	44	26
Transmission lines (km) ^{3,15}	1,682	1,795	2,673	1,134	1,701	4,985	875
Distribution lines (km) ^{4,15}	5,292	6,622	7,801	5,756	10,508	2,242	6,704
Number of administrative and service buildings ⁵	37	31	28	10	15	73	3
Surface area of properties (hectares) ⁶	284	219	1,230	1,435	523	423	297
Electricity consumption profile							
- Number of customer accounts ⁷	77,105	117,943	380,592	127,820	220,772	46,301	85,377
- Electricity sales (GWh) ^{8,15}	4,751	4,446	16,133	11,196	6,729	16,403	7,115
- Revenue from electricity sales (\$M) ^{8,9,15}	276	284	977	511	488	576	391
Hydro-Québec workforce							
Employees working in the region ^{10,15}	676	497	1,638	1,234	359	1,262	92
Economic and social participation							
Procurement of goods and services							
- Amount (\$M) ^{11,15}	25	20	209	143	116	121	31
- Direct jobs supported (person-years) ¹⁵	123	111	1,183	722	587	752	129
Property taxes (\$'000) ^{12,15}	680	600	2,997	533	1,035	1,690	302
Building leasing costs (\$'000) ¹⁵	227	0	1,186	541	128	207	0
Facility tours (number of visitors)	2,487	0	18,434	0	0	15,343	0
Home Diagnostic energy efficiency program ¹³							
- Number of projects supported	53	85	45	0	129	32	68
- Amount granted (\$'000)	249	307	1,093	0	748	133	715
Integrated Enhancement Program ¹⁴							
- Number of initiatives supported	0	0	0	0	0	0	0
- Hydro-Québec grants (\$'000)	0	0	0	0	0	0	0
University research chairs (number)	0	0	2	0	0	0	5
Fondation Hydro-Québec pour l'environnement							
- Number of new projects supported	0	1	1	1	0	3	1
- Amount granted (\$'000)	0	48	25	18	0	89	225

1) Generating stations in operation.

2) Installed capacity of generating stations in operation.

3) The breakdown of line length (km) by administrative region may result in small inaccuracies. It does not include lines under construction or off-grid systems.

4) These figures exclude 44-kV lines (transmission), private systems and lines under construction. The breakdown of line length by administrative region may result in small inaccuracies.

5) Buildings owned by Hydro-Québec and leased building.

6) Properties owned by Hydro-Québec or its subsidiaries (1 ha = 10,000 m²).

7) Number of customer accounts as at December 31, 2010.

8) These figures exclude sales outside Québec and sales to neighboring systems in Québec.

9) Total revenue does not include the impact of derivative instruments used to manage risks resulting from fluctuations in aluminum prices, which affect sales revenue in the industrial sector.

10) Employment is expressed in person-years and represents the average number of employees who worked during the year. Employees of Hydro-Québec subsidiaries are not included in these statistics.

11) Total amount of invoices according to the supplier address shown on the contract. This address may not correspond to the place where the goods were manufactured or the work was performed. Procurement of goods and services by Hydro-Québec subsidiaries and independent power producers is not included in these statistics.

12) These amounts exclude property taxes paid by Hydro-Québec subsidiaries and the public utilities tax for buildings not registered on valuation rolls. In 2010, expenditure related to the public utilities tax totaled \$262 million.

13) ENERGY WISE Home Diagnostic campaign – Support for Local Initiatives component.

14) Under the company's Integrated Enhancement Program (IEP), communities affected by major transmission projects receive funding from Hydro-Québec equivalent to 1% of the initially authorized value of the facilities covered by the IEP.

15) The total was obtained from non-rounded figures.
