Subject: Application under the Act respecting access to documents held by public bodies and the protection of personal information (R.S.Q., c. A-2.1) (Access Act)

We are responding to your letter of October 3, 2016, received on October 4, 2016, in which you ask for information concerning the Hydro-Quebec's transmission system.

You will find enclosed a map of Hydro-Quebec's transmission system. However, due to the reasons outlined in sections 28, 28.1 and 29 of the *Access Act*, enclosed, we are not in a position to provide you with one-line diagrams requested, as they contain information pertaining to security issues.

If you believe you have not obtained a satisfactory response or if you did not receive a response within the prescribed time, you may apply for a review to the Commission d'accès à l'information (CAI) in accordance with Section 135 of the *Access Act*. We have also enclosed a note regarding the review process.

We hope this meets with your satisfaction.

Yours truly,

Stella Leney
Person in charge of access to documents
and the protection of personal information

Encl.
