

Eastmain-1-A Powerhouse and Rupert Diversion

Supplement to the Environmental Impact Statement

Answers to requests for further information made by the Provincial Administrator of the *James Bay and Northern Québec Agreement* and the Federal Review Panel

Volume 6
Pocket insert maps

**Hydro-Québec Production
December 2005**

This document supplements the Environmental Impact Statement and answers the requests for additional information made by the Provincial Administrator of the James Bay and Northern Québec Agreement and the Federal Review Panel with respect to the Eastmain-1-A powerhouse and Rupert diversion project, within the context of the assessment of impact statement compliance.

The supplement was written in French, except for the report by Ms. Toby Morantz, which was supplied in English and is included in the answer to question 272. With the exception of volumes 7, 8 and 9, the entire supplement has been translated into English. In the event of a discrepancy, the French version takes precedence over the English.

The Supplement to the Environmental Impact Statement, in 10 volumes, is subdivided as follows:

- Volume 1: Answers 1 to 137
- Volume 2: Answers 138 to 225
- Volume 3: Answers 226 to 313
- Volume 4: Answers 314 to 384
- Volume 5: Chapter 4 (modified) – Project Description
- Volume 6: Pocket insert maps
- Volume 7: Map sheets
CD-ROM – Figures, maps and table for questions 127, 191 and 192
- Volume 8: Summary of the Emergency Measures Plan in the Event of Dam Failure on the Rupert River Diversion – November 2005
- Volume 9: Summary of the Emergency Measures Plan in the Event of Failure of Dike OA-03 in the Boyd-Sakami System – September 2005
- Volume 10: Summary Report – Update

The Supplement to the Environmental Impact Statement was prepared for Hydro-Québec Production by the Société d'énergie de la Baie James in collaboration with:

- *Direction principale – Expertise, Hydro-Québec Équipement*
- *Direction – Projets de développement*
and *Direction régionale – La Grande Rivière, Hydro-Québec Production*
- *Direction principale – Communications, Hydro-Québec*
