# Work on the Rupert River • April 2010

# ᑫᐦᑎᒋᓇᓄ ᐊᓂᑌ ᓀᐦᐃᐱᐃᓂᓯᐤ ᓱᐋᐦᑌ • ᓂᑎᐱᓱ 2010

Wachiya from SEBJ. We are continuing our work at nine locations on the Rupert River, between the dam site at km 314 (up from the Gorge rapids) to the mouth of the river in Waskaganish Bay. We had consultations during the last few weeks with Waskaganish and Nemaska's tallymen to limit the work done on the traplines during the Goose Break season.

Please note that during Goose Break, SEBJ and Hydro-Quebec will avoid flying with helicopters in the geese hunting zone.

For more details on the work done and more information, please refer to the "Boumhounan Newsletter" available in your community from the Monitoring committee representative, or via the web address below:

Go to www.nationnews.ca and click on the Boumhounan Newsletter link.

Don't miss the radio show "Hydlo and Friends" Wednesday April 21st at 8:30 am on JBCCS for the latest news on activities happening in your area.
