Régie de l'énergie

Application for adoption of reliability standards for electric power transmission in Québec and for approval of the registries identifying entities and facilities subject to reliability standards and of the sanction guidelines

(R-3699-2009)

Purpose of the application

On May 28, 2009, Hydro-Québec's Direction Contrôle des mouvements d'énergie [System Control Unit], in its capacity as reliability coordinator for electric power transmission in Québec, filed an application to the Régie de l'énergie (the "Régie") for the adoption of reliability standards and approval of the registries identifying entities and facilities subject to reliability standards and of the sanction guidelines. The application was submitted under sections 31(5^o), 85.2, 85.6, 85.7, 85.8 and 85.13 of the *Act respecting the Régie de l'énergie* (the "Act"). The Régie intends to conduct a paper review.

Application examination procedure

The Régie asks any interested party to submit an application for intervention no later than **12:00 noon, August 21, 2009**, in accordance with the conditions and requirements set out in the *Regulation respecting the procedure of the Régie de l'énergie*. Any comments by Hydro-Québec regarding such applications must be made in writing and submitted to the Régie no later than **12:00 noon, August 28, 2009**. Any reply by a party whose application was commented on by Hydro-Québec must be submitted before **12:00 noon, September 4, 2009**.

For further information, contact the Régie by phone, fax or email.
