

Hydro-Québec's Declaration of Commitment to the First Nations and the Inuit Nation

WALKING TOGETHER TOWARDS A BRIGHTER FUTURE

OUR COMMITMENT

To develop and strengthen our dialogue with the First Nations and the Inuit Nation to define our common goals so that, together, we might chart a path to reach them.

Our Indigenous partners will guide us in this dialogue.

OUR PILLARS

Hydro-Québec, the First Nations and the Inuit Nation have a shared history that spans many years—some of it positive, some of it painful—and the lessons we have learned will help build a better tomorrow.

We value the wisdom of the elders, recognize the strength of men and women, and believe in the vitality and potential of youth. We salute the resiliency of Indigenous peoples.

We respect and promote the rights, values and governance models of Indigenous peoples. Energy development in Québec will be carried out in cooperation with the First Nations and the Inuit Nation.

OUR AMBITION

To foster, value and embrace Indigenous promise in every aspect of Hydro-Québec's activities, as a partner, an employer, a supplier and a purchaser of goods and services.
