QUÉBEC: HOME TO CLEAN CLOUDS

HYDRO-QUÉBEC: LEADING THE CLEAN ENERGY REVOLUTION

HYDRO-QUÉBEC AT A GLANCE

Hydro-Québec generates, transmits and distributes electricity. We’re the largest electricity producer in Canada and one of the world’s leading hydropower producers.

Hydro-Québec’s Daniel-Johnson dam upstream of Manic-5 generating station (1,596 MW) in the Manicouagan valley, Québec, Canada.
QUÉBEC: THE IDEAL PLACE TO DEPLOY YOUR DATA CENTER

Québec boasts one of the lowest and most stable electricity rates in North America. Seize the opportunity to plug into a host of benefits.

- **Sites available**
  - with ready access to energy, airports and major highways

- **99% clean energy**

- **Access to a technologically advanced telecommunications network**
  - and to Hydro-Québec’s world-renowned reliable grid

- **A rate as low as US 3.21¢/kWh**, transmission and distribution included*

- **A business-friendly environment**
  - Significant support and incentives from the Québec government and from allies in a dynamic business community

*Assumptions:
1. Exchange rate: C$1 = US$0.7959 as at April 1, 2021
2. Rate LG (large power with minimum billing demand of 5,000 kW) effective April 1, 2021 (transmission and distribution included) for 120-kV supply with 95% load factor; includes Economic Development Rate reduction of 20% (if eligible). A gradual transition to undiscounted Rate LG follows over three years before the reduction expires in 2027.
3. Hydro-Québec’s rates are approved by Québec’s regulatory body, the Régie de l’énergie. Eligibility for a rate depends on certain conditions. To determine your eligibility for a rate, contact us or visit [www.hydroquebec.com/business/rates-and-billing/rates/](http://www.hydroquebec.com/business/rates-and-billing/rates/)
4. Applicable taxes not included.
5. Rates and eligibility conditions are subject to change without notice. Hydro-Québec assumes no responsibility for any costs or expenses incurred or which may be incurred due to a change made to the rates or eligibility conditions.
