

Appendix FAC-002-4-QC-21
Specific provisions applicable in Québec for standard
FAC-002-4 — Facility Interconnection Studies

This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of this appendix must be read jointly for comprehension and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.

A. Introduction

1. **Title:** No specific provision.
2. **Number:** No specific provision.
3. **Purpose:** No specific provision.
4. **Applicability:** The Facilities subject to this standard are the Facilities of the Main Transmission System (RTP).

4.1. Functional Entities

No specific provision.

Facilities

~~For the purposes of the standard, Transmission facilities, Generation facilities and End-user facilities are defined as follow:~~

Transmission facilities:

- ~~• Transmission System operated at 44 kV or above;~~
- ~~• Any lines from the Transmission System operated at 44 kV or above;~~
- ~~• Transmission facility operated at 44 kV and above, connected to the Main Transmission System (RTP).~~

Generation facilities:

- ~~• Any generation facility with an installed capacity of 50 MVA or greater;~~
- ~~• Any generation facility connected to the Main Transmission System (RTP).~~

End-user facilities:

- ~~• Addition of a line feeder at 25 kV in a Distribution substation;~~
- ~~• New connection of an Industrial Customer operated at 44 kV and above, connected to the Main Transmission System (RTP).~~

5. Effective Date:

- 5.1. Adoption of the standard by the Régie de l'énergie: xx mois 20xxSeptember 14, 2023
- 5.2. Adoption of the appendix by the Régie de l'énergie: September 14, 2023xx mois 20xx
- 5.3. Effective date of the standard and of its appendix in Québec: October 1, 2024xx mois 20xx

Appendix FAC-002-4-QC-24
Specific provisions applicable in Québec for standard
FAC-002-4 — Facility Interconnection Studies

Requirements	Applicability	Date of implementation in Québec
R5 and R6		October 1, 2024
R1 to R4	To the extent a change is considered a “qualified change” under the definition developed by the PC under FAC-002-4 Requirement R6 but was not considered a “material modification” under FAC-001-3 or FAC-002-3.	October 1, 2025

B. Requirements and Measures

No specific provision.

C. Compliance

1. Compliance Monitoring Process

1.1. Compliance Enforcement Authority

In Québec, “Compliance Enforcement Authority” means the Régie de l’énergie in its role of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix.

1.2. Evidence Retention

No specific provision.

1.3. Compliance Monitoring and Enforcement Program

The Régie de l’énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.

Violation Severity Levels

No specific provision.

D. Regional Variances

No specific provision.

E. Associated Documents

No specific provision.

Version History

Version	Date	Action	Change Tracking
1	September 14, 2023	New appendix as per decision D-2023-107.	New
<u>2</u>	<u>Xx mois 20xx</u>	<u>New appendix as per decision D-20xx-xxx.</u>	<u>Modification to standard scope of application.</u>
