

Our sustainable development strategies

Our goal: Deliver reliable electric power and high-quality services

Direct effects: Contribute to Québec's collective wealth and maintain a low-carbon economy

Governance

Integrate **sustainable development** into our governance, operations and projects

Reflect Québec's **diversity** in our workforce and rally our employees around sustainable development

Ensure workplace **health and safety** and foster employee wellness

Do business with **responsible suppliers**

Community

Operate **sustainable infrastructure** and adapt our activities to climate change

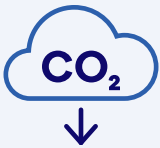

Generate more **sustainable value** in the community

Finance **social progress**

Encourage input from **Indigenous communities** in our development

Environment

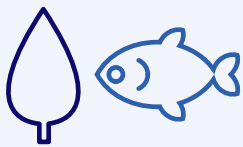

Apply the principles of the **circular economy**

Decarbonize our activities and markets

Enhance and protect **biodiversity**

Consume **less** electricity and use it more **wisely**
