**Re : Request for access to information C-7037**

Good day,

We are writing in response to your request for access to information received on December 9<sup>th</sup> 2019, in which you have requested the following data for Quebec:

" (...) *historical monthly electricity consumption and price estimates.* "

Rate D represents 95% of all residential electrical consumption. As for price estimates, we provided the real average rates. Our two level price structure explains unit price monthly fluctuation. To find out more about Rate D and its price structure, please consult Section 2 of chapter 2 of the Electricity Rates approved by the Régie de l'énergie available at the following address: <http://www.hydroquebec.com/data/documents-donnees/pdf/electricity-rates.pdf?v=20190401>

In reply to your request, find enclosed the historical monthly consumption for the years 2014 to 2018. The information for 2019 is not finalized and ready for publication.

The residential electricity rates for 2016 to 2019 are available on the Régie de l'énergie's Website at the following address:  
<http://www.regie-energie.qc.ca/en/consommateur/distributeurs.html>

For previous years, the rates can be found on the Régie de l'énergie's Website in the case file for each available year. For example, the 2015 rates are found in item B-0240 of the «Demandeur» section of their Website at the following address:  
<http://publicsde.regie-energie.qc.ca/layouts/publicsite/ProjectPhaseDetail.aspx?ProjectID=282&phase=1&Provenance=B&generate=true>

Cordially,

Person in charge of access to documents  
and protection of personal information

Karine Charest

Encl.
