**Subject: Site restoration on Chemin d’Oka and Boulevard des Promenades**

Dear Sir or Madam,

Hydro-Québec would like to inform you that work to restore the site in the chemin d’Oka and Boulevard des Promenades sectors in Deux-Montagnes and Sainte-Marthe-sur-le-Lac (including the top layer of asphalt) will be finalized by the end of July 2020.

This is the last step in Hydro-Québec’s civil engineering work as part of the project to build new 25-kV underground distribution lines to connect customers to the new Patriotes substation.

The installation of the underground distribution lines will be carried out this summer and fall.

Preventive measures will be implemented to ensure the safety of the employees working on site. We will follow all government recommendations and comply with all public health recommendations.

**More information**

For more information, please call the Laurentides Info-project line at 1 800 465-1521, ext. 6022 or visit the project website at <https://www.hydroquebec.com/projects/des-patriotes-substation/>.

Yours truly,

A handwritten signature in blue ink, appearing to read 'A. Rozanova'.
