

Souigny substation and supply line project

Join us for an open house *on*
November 16, 2026

Learn about the progress of the project and share your views.

Join us for an open house about the Souigny substation and supply line project on November 16, 2026.

This event will give you the opportunity to learn more about the project development process and to speak directly with Hydro-Québec experts.

During your visit, you'll be able to:

- Review preliminary plans for the future substation and supply line
- Learn more about how they will be integrated into the environment
- Get information on project timelines
- Speak to project team members and ask them your questions

The discussions held during this event will help improve the project and its integration into the substation and transmission line area. We hope to have the pleasure of welcoming you to this event!

To help us organize the event, we invite you to register in advance.
