

Project news

Belt Line tower removal

January 2026

Hydro-Québec will dismantle the Belt Line towers along the Lachine Canal National Historic Site. The work is necessary to address safety risks, as the towers are no longer in use and some of their foundations have significantly deteriorated.

Work area

The work will be carried out along the bike path that runs parallel to Rue Saint-Patrick, from Pont Saint-Henri to Rue Pitt.

Expected disruption

To remove tower 11 (see map), Rue Saint-Patrick westbound will be closed on February 23 to install a crane.

Work schedule

The work to dismantle the towers will take place from **February 16 to March 9**.

Schedule: Monday to Friday, 7 a.m. to 7 p.m.

Mitigation measures

- Access to the bike path will be maintained.
- A team of signalers will ensure safety around the worksite near the street and crosswalk, as well as near the bike path and roundabout.

Note: A project to showcase the Belt Line's heritage value is currently under study with a view to preserve a record of the city's early electrification.
