Preparatory geotechnical investigation work

May 2026

Hydro-Québec must carry out certain geotechnical investigation drilling to assess soil conditions. This work is intended to prepare for a potential underground network reconstruction project near your residence in 2026. No electrical service interruptions are planned as part of this work.

Work Area

The drilling work will take place near the following addresses: 1176, 1178, 1180, 1182, 1200A, 1200, and 1202 Louis-Joliet Street.

Schedule

Investigation phase: Week of May 11, 2026

Reconstruction work: Summer–Fall 2026

*This phase will be the subject of a subsequent detailed communication.

Nature of the Work

Soil investigation: Vertical drilling to extract a soil core in order to analyze its properties.

Traffic Impacts During Drilling Work

- Shevchenko Boulevard : Closure of the right-hand lane on Shevchenko Boulevard. However, this obstruction will not directly affect the residences located on Louis-Joliet Street.
- Please note that the pedestrian pathway between Louis-Joliet Street and Shevchenko Boulevard will be temporarily closed for the duration of the work, as the drilling will be carried out in front of the stairway.

Mitigation Measures

The work will be carried out during the daytime, and appropriate signage will be installed as required.
