

Notice of Consultation Project QC-2021-04

April 2021

Notice addressed to:

- Entities listed in the Register of Entities
- North American Electric Reliability Corporation, Inc. (NERC)
- Northeast Power Coordinating Council, Inc. (NPCC)
- NPCC Reliability Coordinators
- Régie de l'énergie du Québec (the "Régie") [Québec Energy Board]

Consultation period: April 29, 2021 to May 13, 2021

Purpose of the consultation

In accordance with the process established by the Régie in Decision [D-2011-139](#), the Québec Reliability Coordinator (the "Coordinator") is asking Registered Entities and stakeholders for comments on the following standards with the purpose of their eventual adoption and retirement by the Régie :

New versions of standards to be adopted:

- IRO-002-7 – Reliability Coordination – Monitoring and Analysis
- TOP-001-4 – Transmission Operations

Standards to be retired:

- IRO-002-4 – Reliability Coordination – Monitoring and Analysis
- TOP-001-3 – Transmission Operations

The Coordinator solicits the feedback of Registered Entities on matters regarding the relevance and impact of the reliability standards submitted in the present document. For this purpose, please provide your comments using the online consultation form under this notice on the Public consultation of entities page of the Reliability Coordinator website (<http://www.hydroquebec.com/reliability-coordinator/consultation.html>), making sure to clearly indicate the document (and related section) to which your comments pertain.

You may also send your questions and comments directly to the following address: fiabilite@hydro.qc.ca.

Documents

- Proposed standards and Québec appendices
- Summaries of the standards to be adopted or withdrawn, including preliminary assessments of their relevance and impact
- Redline documents
