

Consultation notice Project QC-2021-06

July 2021

Notice recipients

- Entities listed in the Register of Entities
- North American Electric Reliability Corporation, Inc. (NERC)
- Northeast Power Coordinating Council (NPCC)
- NPCC Reliability Coordinators
- Régie de l'énergie du Québec (the "Régie") [Québec Energy Board]

Consultation period: July 9, 2021 to July 23, 2021.

Update on July 21, 2021: the consultation period is extended until August 13, 2021.

Update on August 12, 2021: the consultation period is extended until August 20, 2021.

Purpose of the consultation

In accordance with the process established by the Régie in Decision [D-2011-139](#), the Québec Reliability Coordinator (the "Coordinator") is asking Registered Entities and stakeholders for comments on the following standard in view of its eventual adoption by the Régie:

New standard version:

- PRC-024-3 – Frequency and Voltage Protection Settings for Generating Resources

Standard to be retired:

- PRC-024-2 – Generator Frequency and Voltage Protective Relay Settings

The Coordinator solicits the feedback of Registered Entities on matters regarding the relevance and impact of the proposed standard. For this purpose, please provide your comments using the online consultation form under this notice available on the Public consultation of entities page of the Reliability Coordinator's website: (<https://www.hydroquebec.com/reliability-coordinator/documentation/consultation.html>), making sure to clearly identify the related section to which your comments pertain

You may also send your questions and feedback directly to the following address: fiabilite@hydro.qc.ca.
