

Notice of Consultation Project QC-2020-01

February 2020

Notice addressed to:

- Entities listed in the Register of Entities
- North American Electric Reliability Corporation, Inc. (NERC)
- Northeast Power Coordinating Council, Inc. (NPCC)
- NPCC Reliability Coordinators
- Régie de l'énergie du Québec (the "Régie") [Québec Energy Board]

Consultation period: February 28, 2020 to March 27, 2020

Purpose of the consultation

In accordance with the process established by the Régie in Decision [D-2011-139](#), the Québec Reliability Coordinator (the "Coordinator") is asking Registered Entities and stakeholders for comments on the following standards with a view to their eventual adoption by the Régie:

- TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events

The Coordinator asks Registered Entities for their opinion on the relevance and impacts of the reliability standards to be adopted or withdrawn. Please provide your comments using the consultation form under this notice on the Public consultation of entities page of the Reliability Coordinator website (<http://www.hydroquebec.com/reliability-coordinator/consultation.html>). Make sure you clearly indicate the document (and document section) to which your comments refer.

You may also send your questions and comments directly to the following address: fiabilite@hydro.qc.ca.

A webinar could be organized (in French only) in the week of March 16, 2020 to present the standard to the Registered Entities and stakeholders. Please demonstrate your interest for this webinar via email at fiabilite@hydro.qc.ca, indicate "Projet QC-2020-01 webinar" in the email object.

Documents

- Proposed standard and Québec Appendix
- Summary of the standard to be adopted or withdrawn, including preliminary assessments of their relevance and impact
