

Appendix QC-TOP-003-~~56.1~~-QC-1
Specific provisions applicable in Québec for standard
TOP-003-~~56.1~~ — ~~Operational Reliability Data~~ Transmission Operator and Balancing
Authority Data and Information Specification and Collection

This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of this appendix must be read together jointly for comprehension and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.

A. Introduction

1. **Title:** No specific provision.
2. **Number:** No specific provision.
3. **Purpose:** No specific provision.
4. **Applicability:**

~~Functional Entities~~

~~No specific provision.~~

~~Facilities~~

This standard applies to the facilities of the Main Transmission System (RTP) and, for the requirements R1 and R2, to the facilities designated under this requirement.

5. **Effective Date:**

- 5.1. Adoption of the standard by the Régie de l'énergie: ~~March 30, 2023~~MM DD
YYYY
- 5.2. Adoption of the appendix by the Régie de l'énergie: ~~March 30, 2023~~MM DD
YYYY
- 5.3. Effective date of the standard and of its appendix in Québec: ~~October 1, 2024~~MM DD
YYYY

B. Requirements and Measures

Specific provisions applicable to requirement R1 & R2 (1.1 and 2.1):

The expression “non BES” is replaced by “non RTP”.

Specific provisions applicable to requirements R1 & R2 (1.3 and 2.3):

The expression “BES” is replaced by “RTP”.

C. Compliance

1. **Compliance Monitoring Process**

- 1.1. **Compliance Monitoring Process**

In Québec, “Compliance Enforcement Authority” means the Régie de l'énergie in its roles of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix.

- 1.2. **Evidence Retention**

No specific provision.

- 1.3. **Compliance Monitoring and Enforcement Program**

Appendix QC-TOP-003-~~56.1~~-QC-1
Specific provisions applicable in Québec for standard
TOP-003-~~56.1~~ — ~~Operational Reliability Data~~Transmission Operator and Balancing
Authority Data and Information Specification and Collection

The Régie de l'énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.

Violation Severity Levels

No specific provision.

D. Regional Variances

No specific provision.

E. Interpretations

No specific provision.

F. Associated Documents

No specific provision.
