

## ~~Standard BAL-003-1.1—Frequency Response and Frequency Bias Setting~~

### ~~Appendix QC-BAL-003-1.12-QC-1~~

#### ~~Provisions specific to the standard BAL-003-1.1 applicable in Québec~~Specific provisions applicable in Québec for standard BAL-003-2 – Frequency Response and Frequency Bias Setting

---

~~This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of this appendix must be read jointly for comprehension and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.~~

~~This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of its appendix must be read together for the purposes of understanding and interpretation. Where the standard and appendix differ, the appendix shall prevail.~~

#### A. Introduction

1. Title: ~~Frequency Response and Frequency Bias Setting~~No specific provisions.
2. Number: ~~BAL-003-1.12~~No specific provisions.
3. Purpose: No specific provisionss.
4. Applicability: No specific provisionss.
5. Effective Date:
  - 5.1. Adoption of the standard by the Régie de l'énergie: ~~February 3, 2017~~Month xx, 20xx
  - 5.2. Adoption of the appendix by the Régie de l'énergie: ~~February 3, 2017~~Month xx, 20xx
  - 5.3. Effective date of the standard and its appendix in Québec: ~~April 1, 2017~~Month xx, 20xx

#### B. Requirements and Measures

##### Specific provision for requirement R2:

In Québec, a Frequency Bias Setting becomes mandatory only after an approval by the Régie. Each Balancing Authority that receives a request to modify a Frequency Bias Setting must submit the request to the Reliability Coordinator who will file it for approval with the Régie.

#### ~~C. Measures~~

~~No specific provisions.~~

#### D.C. Compliance

##### 1. Compliance Monitoring Process

###### 1.1. Compliance Enforcement Authority

In Québec, “Compliance Enforcement Authority” means the Régie de l'énergie in its roles of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix.

~~The Régie de l'énergie is responsible, in Québec, for compliance enforcement with respect to the reliability standard and its appendix that it adopts.~~

###### 1.2. ~~Compliance Monitoring and Enforcement Processes~~Evidence retention

No specific provisions.

###### 1.3. ~~Data Retention~~Compliance Monitoring and Enforcement Program

## ~~Standard BAL-003-1.1—Frequency Response and Frequency Bias Setting~~

### ~~Appendix QC-BAL-003-1.12-QC-1~~

#### ~~Provisions specific to the standard BAL-003-1.1 applicable in Québec~~Specific provisions applicable in Québec for standard BAL-003-2 – Frequency Response and Frequency Bias Setting

---

The Régie de l'énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.

~~No specific provision~~

#### ~~1.4. Additional Compliance Information~~

~~No specific provision~~

#### **Violation Severity Levels (VSL)**

No specific provisions.

#### **E.D. Regional Variancess**

No specific provisions.

#### **F.E. Associated Documents**

No specific provisions.

#### **Attachment A**

No specific provisions.
