

**IRO-010-3 Reliability Coordinator Data Specification and Collection**

This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of ~~its—this~~ appendix must be read ~~together—jointly~~ for the ~~purposes—of understandingcomprehension~~ and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.

**A. Introduction**

1. **Title:** No specific provision
2. **Number:** No specific provision
3. **Purpose:** No specific provision
4. **Applicability :**

**Functions**

No specific provision

**Facilities**

This standard applies to the facilities of the Main Transmission System (RTP) and, for requirement R1, to the facilities designated under this requirement.

**5. Effective Date :**

- 5.1. Adoption of the standard by the Régie de l'énergie: ~~April 15, 2021~~Month xx, 202x
- 5.2. Adoption of the appendix by the Régie de l'énergie: ~~April 15, 2021~~Month xx, 202x
- 5.3. Effective date of the standard and its appendix in Québec: ~~April 1, 2022~~Month xx, 202x

All requirements become effective on August 1, 2022.

~~**6.—Background:**~~

~~No specific provision~~

**B. Requirements**

**Specific provision applicable to requirement R1 (1.1):**

The expression “non BES” is replaced by “non RTP”.

**C. Compliance**

**1. Compliance Monitoring Process**

**1.1. Compliance Enforcement Authority**

In Québec, “Compliance Enforcement Authority” means the Régie de l'énergie in its roles of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix. The Régie de l'énergie is responsible, in Québec, for compliance enforcement with respect to the reliability standard and its appendix that it adopts.

**1.2. Compliance Monitoring and Assessment Processes**

~~Standard IRO-010-2—Reliability Coordinator Data Specification and Collection~~

~~Appendix QC-IRO-010-32-QC-1~~

~~Specific Provisions specific applicable in Québec for to the standard IRO-010-32 applicable in Québec~~

~~IRO-010-3 Reliability Coordinator Data Specification and Collection~~

~~The Régie de l'énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.~~ ~~Compliance Audit~~

~~Self-Certification~~

~~Spot Check~~

~~Compliance Investigation~~

~~Non-Compliance Self-Reporting~~

~~Periodic Data Submittal~~

~~Exception Reporting~~

~~Investigation following a complaint~~

**1.3. Data Retention**

No specific provision

**1.4. Additional Compliance Information**

No specific provision

**2. Table of Compliance Elements**

No specific provision

**D. Regional Variances**

No specific provision

**E. Interpretations**

No specific provision

**F. Associated Documents**

No specific provision

**Guidelines and Technical Basis**

No specific provision

**Version History**
