

**Specific provisions applicable in Québec for standard
TPL-007-~~34~~ – Transmission System Planned Performance for Geomagnetic Disturbance
Events**

This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of this appendix must be read jointly for comprehension and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.

A. Introduction

1. Title: No specific provisions.

2. Number: No specific provisions.

3. Purpose: No specific provisions.

4. Applicability:

4.1. Functional Entities

No specific provisions.

4.2. Facilities

4.2.1 No specific provisions.

5. Effective date:

5.1. Adoption of the standard by the Régie de l'énergie: ~~February 17,~~
~~2021~~Month xx, 20xx

5.2. Adoption of this appendix by the Régie de l'énergie: ~~February 17,~~
~~2021~~Month xx, 20xx

5.3. Effective date of the standard and
of this appendix in Québec: ~~April 1st, 2021~~Month
xx, 20xx

The requirements will be implemented on the following dates:

Requirement	Implementation date
R1	July 1st, 2021 <u>Month xx, 20xx</u>
R2	July 1st, 2022 <u>Month xx, 20xx</u>
R5 and R9	April 1 st , 2023
R1 21 and R1 32	October 1 st , 2023
R6 and R10	April 1 st , 2025
R3, R4, R7, and R8 <u>and E11</u>	April 1 st , 2026

6. Background: No specific provisions.

Specific provisions applicable in Québec for standard
TPL-007-~~34~~ – Transmission System Planned Performance for Geomagnetic Disturbance
Events

B. Requirements and Measures

Specific provision applicable to Requirement R5, R6, R9 and R10, and ~~measures~~ Measures M5, M6, M9 and M10 replace “BES” by “RTP”.

C. Compliance

1. Compliance Monitoring Process

1.1. Compliance Enforcement Authority

In Québec, “Compliance Enforcement Authority” means the Régie de l’énergie in its roles of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix.

1.2. Evidence Retention

No specific provisions.

1.3. Compliance Monitoring and Enforcement Program

The Régie de l’énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.

Table 1: Steady State Planning GMD Event

Replace “BES” by “RTP” ~~:~~.

Violation Severity Levels

Replace “BES” by “RTP” for requirement R5, R6, R9 and R10 of the VSL ~~:~~.

D. Regional Variances

No specific provisions.

E. Associated Documents

No specific provisions.

Attachment 1

No specific provisions.

Attachment 1-CAN

No specific provisions.

~~**Guidelines and Technical Basis**~~

~~No specific provisions.~~

~~**Rationale**~~

~~No specific provisions.~~
